

## 21<sup>st</sup> Century Skills

Using technology, students can more readily learn the skills they will need in higher education and as vital members of the workforce in the 21<sup>st</sup> century.

Those skills include the ability to:

- Discern the validity and importance of information
- Access, manage, and use information fluidly
- Apply technology programs and applications effectively
- Be flexible and adaptable in learning new practices and applying knowledge
- Show initiative and self-direction
- Interact effectively with others, working in diverse teams
- Manage time, multi-task, and produce at high levels
- Guide and lead others
- Act responsibly with the interests of the larger community in mind
- Continue to learn throughout life
